**OUR purpose** is to determine whether or not a system (electrical, heating, etc) is working properly. WE are not responsible to determine all that may be wrong with that system, just whether or not a second opinion is needed, such as a licensed electrician or HVAC contractor. They determine what steps are necessary to correct. Their troubleshooting may reveal additional items not mentioned in this report. WE are not responsible for items mentioned or not mentioned in this report. WE are not a guarantee nor do we guarantee any items or opinions described on this report.

Failure on behalf of the CLIENT to notify US in writing and grant US a reasonable opportunity to re-inspect, address, and repair the alleged item(s) is admission by the CLIENT that the condition did not exist at the time of the inspection and shall constitute a remise, full release, and forever discharge US from all, and all manner of, actions, causes of action, suits, proceedings, debts, dues, judgments, damages, claims, administrative claims, and demands whatsoever in law or equity. If CLIENT makes a claim against US for an alleged error, omission, or other act arising out of this inspection report and fails to prove such claim, CLIENT agrees to pay all attorneys' fees, arbitrator's fees, legal expenses, and costs incurred by US in defense of the claim. In the event of a refund of inspection fee or portion thereof, or any other sum, such refund shall be a full and final settlement of all present and future claims, administrative claims, and causes of actions, complaints, etc. and WE shall be thereupon generally and fully released. This inspection is not for third party use; CLIENT requests this inspection/report for their confidential use only. WE will not release this report to any third party without client approval. If CLIENT decides to release this report to others CLIENT agrees to defend, indemnify, and hold US harmless for any damages claimed by others. CLIENT agrees that WE will only be named as a fact witness in litigation issues and CLIENT agrees to execute our litigation agreement prior to naming us an fact witness. Should any buyer or entity disclaim authority of contract signer to act as an agent of any or all buyers, then the signer of the contract herein indemnifies us for all costs, damages, judgments, and expenses incurred by us, including attorney's fees, regarding any claims against us made by buyer or entity that relies on report or other representation or conduct of us or agents thereof.

Re-inspections of repairs will be considered on a case by case basis and are billed at \$200.00 for the first hour (or part of) \$100.00 per additional hour (or part of). Fees include travel time and report writing time.

**Fees / Payment:** CLIENT is responsible for payment in full of all of our fees. The cost of the home inspection is based upon the age, total square feet (heated & unheated), and condition of the home to be inspected and is subject to correction. Homes in distress, cluttered, foreclosed, "short sales", for sale by owner, investment, and rental properties may be charged an additional fee, must be paid in full before the report is released. Failure to notify US of such a property at the time of scheduling may result in the inspection being aborted and the CLIENT will be responsible for payment in full. **Thermal Imaging Addendum to Inspection Authorization**

This is an addendum to the Agreement regarding the inspection at (address):

---

Thermal imaging is a technology exceeding any state or association standards of practice that allows the INSPECTOR to show you things about your home that no one can show you using other inspection methods. Thermal imaging produces images of invisible heat energy emitted from objects and systems in the home and allows us to measure it. Thermal imaging helps to diagnose the problem rather than merely identify symptoms and can sometimes, but not always, identify and document: Electrical faults before they cause a fire, overloaded and undersized circuits, circuit breakers in need of immediate replacement, missing, damaged, and/or wet insulation, heat loss and air infiltration in walls, ceilings, floors, windows and doors, water and moisture intrusion that could lead to mold, possible pest infestation, hidden roof leaks, before they cause serious damage, air conditioner compressor leaks, under fastening and/or missing framing members, structural defects, broken seals in double pane windows, energy loss and efficiency, dangerous flue leaks, damaged and/or malfunctioning radiant heating systems, unknown plumbing leaks, overheated equipment. These color images can then be included in the inspection report providing supporting documentation to the report. A picture is worth a thousand words.

1. CLIENT requests and authorizes INSPECTOR to perform a thermal imaging scan on the home listed above. The fee for this additional service is listed above all of which is due prior to delivery of the thermal images/report.
2. INSPECTOR's liability arising for any damages allegedly arising out of any aspect of the thermal imaging service shall be limited to the additional amount paid for the thermal imaging scan. CLIENT voluntarily waives any claim or administrative claim for consequential, exemplary or incidental damages to the fullest extent allowed by law.
3. The thermal imaging scan will be limited in scope to the equipment used by INSPECTOR. The inspection will be a non-invasive and non-destructive examination of the visible, safely and readily accessible portions of the interior and/or exterior of the structure for atypical temperature/thermal variations. NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES REGARDING FUTURE USE, HABITABILITY, OPERABILITY, SUITABILITY, OR MERCHANTABILITY WITH RESPECT TO THE SUBJECT PROPERTY ARE PROVIDED.
4. Thermal imaging services do NOT include any inspections, examinations, testing or evaluations for harmful, dangerous, or toxic substances or materials or environmental hazards including but not limited to: mold, bio-aerosols, radon, lead, asbestos, non-biological airborne particulates, contaminants, petroleum products, petrochemicals, radioactive materials, electromagnetic radiation, plant, animal, or insect secretions or excretions. Infrared cameras are not moisture meters but can aid in identifying areas that warrant further investigation. If INSPECTOR offers any information or opinions about any of the forgoing, this information shall be deemed to be informational only and supplied as a courtesy to the CLIENT and shall not be deemed to be an amendment to this addendum or the inspection agreement.
5. CLIENT agrees to indemnify and hold harmless INSPECTOR, its agents, referring parties, employees, and inspectors for the presence of any harmful, dangerous, or toxic substances or materials or environmental hazards including but not limited to those listed in part 4 of this addendum as well as for any and all damages and liability for any mitigation, construction, or any other costs associated with the presence of any such hazards or substances or materials.
6. If CLIENT desires to obtain information regarding the presence of any harmful, dangerous, or toxic substances or materials or environmental hazards including but not limited to those listed in part 4 of this addendum, it is solely the responsibility of the CLIENT to contact and engage the services of qualified individuals or companies that specialize in the areas of specific interest or concern.
7. Recording of the inspection process is not allowed and disclosure must be made 72 business hours in advance if the intent involves a patent infringement investigation.
8. All of the other terms of the Agreement (Inspection Contract) are incorporated herein by reference.

**I have carefully read the foregoing and I understand, accept, and agree with all of the terms and conditions of this addendum.**
